Industry-Wide EPD
Rubber Floor Tile

According to ISO 14025

Range of Applications

Rubber tile is typically used commercially in healthcare, educational, retail, transportation, institutional, and office interiors.

Product Standards

The products considered in this EPD meet or exceed the following Technical Specifications:

- o ASTM F 1344 – Standard Specification for Rubber Floor Tile

Fire Testing:

- o Class 1 when tested in accordance with ASTM E 648/NFPA 253, Standard Test Method for Critical Radiant Flux if applicable
- o FSCI-150; SD-150 when tested in accordance with CAN/ULC S102.2, Standard Test Method for Flame Spread Rating and Smoke Development if applicable

Accreditations

Compliant with FloorScore Flooring Products Certification Program for Indoor Air Quality.

Product Characteristics

Rubber Floor Tile	Average Value	Unit	Minimum Value	Maximum Value
Product Thickness		mm	2	6.4
Wear layer thickness		mm	None	2
Product weight *	5,215	g/m ²	4,724	5,429
Product Form:	Tiles	mm	610 x 610	610 x 610
VOC emissions test method	Compliant with California Department of public Health Standard v1.1, 2010 and certified by FloorScore Flooring Products Certification Program for Indoor Air Quality			
Sustainability certifications	Some products certified to NSF / ANSI – 332 Sustainability Assessment for Resilient Floor Coverings			

*To determine the average product weight, the actual volume of each participating manufacturer’s production was used proportionately to determine the overall average value in the above chart.
